DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9, 11-23, 25-36 and 38-73 are rejected under 35 U.S.C. 102(b) as being anticipated by US patent 4699215, Cuiper.

In regards to claims 1-9, 11-23, 25-36 and 38-73, Cuiper discloses a connector, comprising:

a first end adapted to be coupled to a first component;

a plurality of locking segments (41) that, when actuated, are adapted to secure said first component to a second component, wherein each of said plurality of locking segments comprises:

a first primary locking shoulder that is adapted to engage a first surface on said first component; and

a second primary locking shoulder that is adapted to engage a second surface on said second component; and

a locking mandrel (25, 35, 51) that, when actuated, is adapted to engage each of said plurality of locking segments at at least three discrete, spaced apart engagement areas.

Response to Arguments

Applicant's arguments with respect to claims above have been considered but are moot in view of the new ground(s) of rejection.
